

**ABSTRACT OF THE DISCLOSURE**

There is disclosed a support mount for stage equipment. The support mount may be attached to a rail. The support mount may include a mount device, a base plate and a knob assembly. The knob assembly may include a knob, a stem and a bolt. The bolt fits into a channel in the rail. The support mount may be quickly easily attached to and removed from the rail by rotating or otherwise engaging the knob assembly. Lighting and other stage equipment may be attached to the mount device when the support mount is coupled to a rail that is secured to a wall.
